Florida Space Coast Chapter
Dr. Bob Lehton-President
321-783-1837

The Florida chapter of Pilots for Christ, Servant Air Ministries, has had a couple of pretty busy months. In July 14 people from the Team Effort group in Georgia were flown to Marsh Harbor/Hopetown, the Bahamas, flown by Steve Miller (2 loads), Glen Gray, and Scott DeMasso. Voyager Aviation, began a series of monthly flying events and competitions for pilots at and around Merritt island. This has been a great way to open up our ministry to our flying neighborhood and families. SAMI/Pilots For Christ set up a booth at the Brazilian Business Fair. At the event we got 13 people to sign up with an interest in becoming mission pilots and joining our efforts. We offered Discovery Flights as fund raiser prizes at Devine Mercy Catholic Church. As this year's hurricanes have made their path of destruction across the Bahamas, we had learned of a number of areas that not only lost power for long periods but also fresh water resources. Bob received a call from one of our members, Ryan Roberts, about the extreme need for water in Cat Island. Bob was able to get a hold of Joe Hurston of Air Mobile Ministries, makers and providers of internally powered portable Water Purifiers, and Joe agreed to deliver the two spare units he had with him and a third donated one. The "timing" of God's relief was no accident. These three units are able to clean about 75 gallons of drinking water an hour, or 1800 gallons in 24 hours, so you can imagine the benefit these will be providing in very short order. Praise God for today's technolog and the convenience of world communications.

KANSAS CITY HEARTLAND CHAPTER
GARY GEIB-PRESIDENT
816-224-8411
